The Arctic Energy Revolution

How and why your future energy system is being pioneered in Alaska
North American Electric Grid
Microgrid powered with Distributed Renewable Energy

Shungnak, Alaska
Long fuel distribution routes
Bethel, Alaska
Chena Hot Springs: Geothermally Powered Microgrid
THE FUTURE BEGINS TODAY...
at Chena Hot Springs Resort
YOU ARE FOLLOWING A VEHICILE POWERED BY WASTE VEGETABLE OIL
www.yourownpower.com
St Paul Island Microgrid up to 100% wind power – 15 yrs of operation
Kodiak Island: Microgrid with 100% renewable generation year round
70 (of 150) Communities in Alaska are served by renewable energy-powered microgrids

Alaska Microgrids powered in part or wholly through renewable energy.
Alaska: ‘North to the Future’
